EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joshua Cohen on April 28, 2005.

The application has been amended as follows:

In the Claims:

In line 1 of claim 14, "claim 7" has been changed to ---claim 12---.

2. The following is an examiner's statement of reasons for allowance: The closest prior art to Howard et al. (2003/0161789) discloses a system for recovering carbon dioxide from a supercritical extraction process, comprising adjusting the pressure, venting carbon dioxide vapor, adjusting the temperature, creating and separating a two phase mixture, and passing the vapor phase to an adsorber and/or dryer, but fails to suggest a motivation for filtering the vapor phase to remove particulates before passing the stream to the adsorber as recited in instant claims 1 and 6. Howard et al. also fails to suggest using a container to collect the separated liquid phase, or a filter to remove particulates from the vapor phase in combination with an adsorber to remove trace impurities from the filtered stream.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The additional references listed on the attached PTO-892 form disclose gas purification and recovery systems.
